

Dear Students,

In this letter, we are providing you with organizational information regarding the course **First Aid III**.

This course will include only **one practical session**, which will focus on reviewing **Advanced Life Support (ALS) for adults**. Before attending the practical session, it is essential that you revise the knowledge you acquired during your **4th year of study**. The study materials can be found in Moodle under:

CZECH COURSES / DEPARTMENT OF ANESTHESIOLOGY, RESUSCITATION AND INTENSIVE CARE MEDICINE / First Aid III – 5th Year

Your study groups will be divided into **two subgroups**. The subgroup assignments can be found at the end of this letter. The practical sessions will take place at the **Simulation Center of the Faculty of Medicine**.

Before attending the practical session, you are also required to complete a test in the Moodle system. The test consists of **10 questions**, and to pass, you must answer **at least 8 questions correctly**. You will have **two attempts** to pass the test.

Students who do not pass the test will automatically receive a **“Not Passed”** evaluation for their first credit attempt. They will subsequently be given the opportunity for a **third attempt** after completing the practical session.

Requests to open the third attempt should be sent to:
cakap3ar@lfhk.cuni.cz.

The test can be found in Moodle under:

CZECH COURSES / DEPARTMENT OF ANESTHESIOLOGY, RESUSCITATION AND INTENSIVE CARE MEDICINE / Tests / First Aid III Test / Test_First_Aid_III_2025_2026

Each study group has its own designated test in Moodle. The test only displays an overall result indicating whether it has been **PASSED** or **NOT PASSED**. Based on previous experience, this result may not always be displayed correctly when the test is completed using the Moodle mobile application. Therefore, we recommend taking the test directly in a web browser.

Course Credit Requirements

To obtain course credit, students must:

- Successfully complete the Moodle test.
- Attend the practical session.
- Demonstrate the ability to perform **Advanced Life Support (ALS)** on a simulator.

For any questions regarding the organization of the practical sessions, please contact the KARIM Secretariat:

E-mail: klara.plasilova@fnhk.cz

For questions regarding the test or the granting of course credit, please contact:

E-mail: cakap3ar@lfhk.cuni.cz

Kind regards,
